

**Tulpehocken Township
Board of Supervisors
Meeting of September 13, 2017**

The Tulpehocken Township Board of Supervisors met on September 13, 2017 in the Township meeting room at 7 P.M. In attendance and voting were Supervisors: Chairman Gary Deck, Vice Chairman Richard Kramer and Lester Feick, Supervisor. Also present were Kris Kerschner, Police Chief, and Christy Flaherty, Township Secretary/Treasurer.

Members of the audience included: Dale Oswald, Sherri Oswald, David Patrick, Aaron Hoover, Larry Dean Martin, George Field, Shelley Derr, Dennis Royer, Lloyd Schneck, Lori Deck, Linda Umbenhauer and Robert Sattazahn.

CALL TO ORDER

Chairman Deck called the meeting to order at 7:00 P.M.

The meeting continued with the pledge to the American Flag.

Chairman Deck advised the public that on Wednesday, August 30th the Board met in an Executive Session to discuss personnel matters.

PUBLIC COMMENTS

Mr. & Mrs. Oswald (89 Wintersville Road) reported that they are interested in purchasing a prefab home from Lebanon Valley Homes. They inquired if the Township would allow them to live in a camper on their property while their new home is being built; they feel that they would be living in the camper for approximately three (3) to four (4) months.

Supervisor Feick made a motion to allow Mr. & Mrs. Oswald six (6) months once the Zoning & Building Permits are issued. The motion was seconded by Vice Chairman Kramer and passed unanimously (3-0).

Mr. Field commented with regards to smoke/odor coming from the chicken farm located off of Cherry Hill Road. Mr. Martin reported that he has been roasting the chicken litter (used bedding) at his property; noting that this is a form of recycling. The odor coming from the roasted litter was discussed. Chairman Deck advised that the Township will research to verify that manure roasting is safe. Mr. Martin reported that if he does continue with the litter roasting, it would be done approximately every two months; noting that the process takes approximately two and a half (2 ½) days at ten (10) hours per day.

Mr. Patrick representing St. Johns Church commented with regards to the condition of Apple Street; noting the deterioration. Supervisor Feick advised that he is aware of the situation and is hoping to address the matter this year, but due to the weather is unsure if the repairs will happen this year. Chairman Deck commented that the repair cost should be budgeted for and approved at a meeting. It was noted that if liquid fuels funds are not used the work can be completed after October 31st. Supervisor Feick reported that he is still hopeful that the repairs will be completed this year.

Mr. Field commented with regards to the speeding issues in Rehrersburg; he suggested that a school

bus was speeding on Monday around 8:40 A.M. Chief Kerschner advised that he would contact the School District's Transportation Department to discuss the matter. Chairman Deck questioned what time of day the speeding is happening. Mr. Field noted that it is anytime. Chief Kerschner reported on the upcoming grant details. The Board discussed areas in the Township that are issues with regards to aggressive drivers and speeders. The Board advised that the Township will work on.

Mr. Royer inquired if the Township could revisit the administrative schedule; so that the office could be open five (5) days a week. Chairman Deck advised that the matter could be discussed during the upcoming budget discussions. Vice Chairman Kramer noted that the Township Secretaries are only part time and each has their own duties. Mrs. Flaherty suggested the Township may want to consider offering evening hours.

Mr. Martin inquired on the Township's plan for the intersection of Cherry Hill and Rehdersburg Roads. He advised that he received a quote from Reber & Zerbe to top coat the area he widened for a cost of approximately \$1,500. Supervisor Feick reported that the proposed improvements will cost well over \$2,500. Chairman Deck commented with regards to the land Mr. Martin donated to the Township. Supervisor Feick reminded the Board that the Township did not require Mr. Martin to do the improvements to Lions Park Drive. It was noted that currently the Township is holding \$2,500 for improvements to the intersection and \$1,000 for the NPDES Permit and that the Township Engineer will have to review to verify that all items in the agreements are met prior to the release of any escrow funds.

APPROVAL OF MINUTES

Vice Chairman Kramer made a motion to approve the minutes from the August 9, 2017 Board of Supervisors meeting. The motion was seconded by Supervisor Feick and passed unanimously (3-0).

ADMINISTRATIVE ACTIONS

Planning Commission

Aaron Hoover Dairy Operation: Time expires October 4, 2017. Red Barn Consulting was present to discuss this plan. The main concern for this plan is the access to the farm. Currently, trucks are using both driveways for access and there will be no increase in the truck traffic. It was presented that stop signs could be placed at the intersection of Airport Road and Little Swatara Church Road or signage to be placed for trucks not to use the upper driveway and to use the lower driveway only. The trucks would be making left turns only to enter and right turns only to exit. Plans need to be revised and resubmitted for the Township Engineer's review. The Planning Commission would be more favorable to have the signage placed and possibly have a one way for the entrance and the exit. There will be a note on the plan stating that signage and owner will notify the truck drivers of the access to the farm.

John Zimmerman made a motion to recommend to the Board of Supervisors to grant the waiver request for Section 205, Section 303.1.B, Section 303.1.L and Section 307.B.1.a. Scot Hetrick seconded the motion. All in favor, motion carried.

- ***Section 205. This section requires submitting a preliminary plan for approval ahead of submitting a final plan. A modification of this section is being requested due to the plan being minor in scope and no new utilities or streets are being offered for public dedication.***

- ***Section 303.1.B.*** This section pertains to the requirement of providing precise bearings and distance, for the entire tract and all boundaries, accurately labeled and the location of all required boundary line monuments. The land development is located over one hundred feet from any property line or street right of way line and Hershey Surveying Inc. will be establishing monuments.
- ***Section 303.1.L.*** This section pertains to the requirement of providing a certificate of Accuracy to be signed and sealed by a surveyor. This plan will have the monuments set by an established registered surveyor. Hershey Surveying Inc. will review and certify the Deed Plot prior to final plan approval.
- ***Section 307.B.1.a.*** A minimum depth of 48 inches between the bottom of the facility and the seasonal high water table and or bedrock for street runoff. Testing was completed for the infiltration facility of this plan the results provided a minimum of 24 inches of separation. The PA BMP Manual only requires a minimum of 24 inches of separation.

Supervisor Feick made a motion to grant the waiver request for section 205, Section 303.1.B, Section 303.1.L and Section 307.B.1.a. The motion was seconded by Chairman Deck and passed unanimously (3-0).

Laverne Frey Zimmerman made a motion to recommend to the Board of Supervisors to grant conditional preliminary/final plan approval based on the conditions listed below; Ray Daub seconded the motion. All voted in favor, motion carried:

- ***The conditions of the Township Engineer's review letter dated September 6, 2017.***
- ***Adding the signs discussed for the truck traffic.***
- ***Adding additional notes to the plan regarding the operator telling the trucking companies.***
- ***Verification that certified letters were sent to the trucking companies regarding the access to the farm.***
- ***Creating an exhibit for the truck access driveway.***

Vice Chairman Kramer made a motion to grant Conditional Preliminary/Final Plan approval based on the conditions listed below:

- ***The conditions of the Township Engineer's review letter dated September 6, 2017.***
- ***Adding the signs discussed for the truck traffic.***
- ***Adding additional notes to the plan regarding the operator telling the trucking companies.***
- ***Verification that certified letters were sent to the trucking companies regarding the access to the farm.***
- ***Creating an exhibit for the truck access driveway.***

The motion was seconded by Supervisor Feick and passed unanimously (3-0).

Red Barn Consulting Inc. presented a time extension letter to the Township for a 90 day time extension. Gary Deck made a motion to recommend to the Board of Supervisors to accept the time extension letter for 90 days, giving a new date of January 2, 2018. John Zimmerman seconded the motion. All in favor, motion carried.

Supervisor Feick made a motion to accept the time extension letter for 90 days, giving a new date of January 2, 2018. The motion was seconded by Vice Chairman Kramer and passed unanimously (3-0).

Nelson Auker Poultry Operation: Time expires November 1, 2017. This plan was discussed informally at July's Planning Commission meeting. The property is located at 16 Rehrersburg Road and is in the RR District. The applicant would like to take down two of the existing barns and put up three new barns for broilers. The current number of birds housed is approximately 60,000. The total proposed would be 86,000. The one existing barn he would like to use as a woodshop. A woodshop is not a permitted use in the Rural Residential district. He could use 1,000 square feet of the building for the woodshop and the remaining space would need to be for storage for the residence or the chicken houses. It cannot be utilized for storage for the woodshop. The operation would be considered intensive agriculture. Lot size is only 11.27 acres. The maximum building coverage allowed is 10% for this zoning district. The total proposed is 35%. The residential trailer will ultimately be removed in the future. If it stays, septic testing will need to be done for the trailer as well as the house. The driveway will be widened for truck traffic. There are a number of general comments for this plan. The main concern is not having enough building coverage of the lot. The applicant has said that he will discuss securing a drainage easement with the adjoining property owner to the North, which is also his uncle. The applicant will need to obtain 20.5 acres to meet the maximum building coverage. John Zimmerman made a motion to recommend to the Board of Supervisors to not approve an easement with the adjoining property owner. Instead, the property should be subdivided. Laverne Frey seconded the motion. All in favor, motion carried. The applicant will be submitting a Zoning Hearing Application to the Township on Monday. This would be due to exceeding the total impervious lot coverage for the rural residential district in the Township. The Planning Commission will be able to review and comment on the Zoning Hearing Application to the Zoning Hearing Board.

Chairman Deck reported that he feels the property is very close to other residential properties; noting that the property is only 11.27 acres.

Other Business:

Ray Daub asked the Township Engineer if he spoke to the Conservation District. The Township Engineer stated no, he has not. Ray Daub stated that he would like a letter sent to Lanita Trucking to make sure that they do what needs to be done to fix the drainage issue running onto Ray's property. They are supposed to be putting in a stone trench along the edge of the berm. It seems like water seeping through and hitting the shale and draining onto Ray's property. The applicant's design engineer sent anti-seep collar pictures to the Township Engineer. However, it is not clear whether the pictures are truly from this particular location. The Township Engineer told the applicant's design engineer that a letter needs to be signed and certified that this was indeed done for this job. Scott Hetrick made a motion to recommend to the Board of Supervisors to have the Township Engineer draft an official letter to Lanita Trucking and their engineer to document that a stone trench the length of the basin with a perforated pipe will be installed and connected to the existing inlet on Ray Daub's property. This stone trench and pipe will address the concern with the storm water infiltrating under the basin and onto Ray Daub's property. This work shall be done prior to final release of any escrow amount. Seconded by John Zimmerman. All in favor, motion carried.

Chairman Deck made a motion to authorize the Township Engineer draft an official letter to Lanita Trucking and their engineer to document that a stone trench the length of the basin with a perforated pipe will be installed and connected to the existing inlet on Ray Daub's property. The work shall be completed prior to final release of any escrow amount. The motion was seconded by Vice Chairman Kramer and passed unanimously (3-0).

Discuss Mrs. Derr's request to purchase the Township ROW adjacent to her property

The Board discussed Mrs. Derr's request and the recommendation received from Ludgate Engineering for the Township to retain the ROW. Supervisor Feick agreed with Ludgate's recommendation and reported on past discussions with regards to improvements to the intersection of Rt. 501 (Lancaster Avenue) and East Market Street. The Township ROW on Lancaster Avenue (Rt. 501) starts 40' from the center of the roadway and extends no further than 66' from the center of the roadway; making the Township ROW 26'. Ms. Derr commented on the sign being installed by the Mt. Aetna Fire Company and inquired if the proximity to her property line would affect her property if she wants to develop it in the future. The Board did not believe that would be an issue. Ms. Derr inquired if East Market Street is a Township road. The Board confirmed that East Market Street is a Township owned road.

Supervisor Feick made a motion to retain the Township ROW adjacent to Mrs. Derr's property (2 East Market Street) for possible roadway improvements in the future. The motion was seconded by Vice Chairman Kramer and passed unanimously (3-0).

The Board thanked the Derr's for maintaining the Township's ROW.
